

Laser Lipo

Looking good...
is feeling good

We Have Dropped Our Prices!

- No recovery time – walk out and go back to your day!
- Melts fat away – immediate results!
- Non-invasive – no incisions, no surgery, no discomfort!

The Strawberry Laser is completely non-invasive, completely non-surgical, and completely non-painful! FDA cleared for U.S. use, the Strawberry Laser has been successfully melting the fat and recontouring the figures of millions of patients in over 30 countries for several years. Most patients will see a difference with their very first treatment session! We've grown accustomed to our patients smiling over their loss of 1-3 inches of fat with nearly every session! All you need to do to make it work is keep up with your cardio, drink plenty of water, and avoid those pesky sugars and carbs.
